

Custom Cornhole game set

Donated by Lon Flagtwet

Cornholing has become one of the midwest's favorite pastime sports. Two to four players engage in heated competition trying to reach a score of 21 before the opposing team. Players score points by landing their bags on the opposing board or by getting their bags in the cornhole. Players compete to knock their opponent's bags off the board and score the most points to win. Full instructions are included with this handmade kit. Each board comes with collapsible legs, a convenient carrying handle on the side, and 16 tossing bags.

Thank you, Lon, for sharing your talents in support of Spring Creek Prairie Audubon Center!
