## Horseshoes game set

Horseshoes is a classic game with roots stretching back to ancient Greece.

Two to four players compete to reach a score of 21 before the opposing team. Players score points by landing their shoes around or near the opposing stake. A “ringer” scores the player 3 points, and a shoe within six inches of the stake scores 1 point. Full instructions are included with this handmade kit. This set includes a durable custom carrying case, two sets of matching shoes, stainless stakes, and a score tower.
