

Tastes in the Tallgrass

Prairie Ecology & Bird Tour for 6 *Donated and led by Rick Schneider and Jason “the Birdnerd”*

You and five friends and/or family can take this special tour of the tallgrass. Led by Board member and former head of the Nebraska Natural Heritage program, Rick Schneider, you'll learn more about prairie ecology as you wander through Spring Creek Prairie discussing what makes up a prairie, why prairies occur in the Great Plains, how they are maintained, and what this prairie may have been like in the time of Lewis and Clark. You'll also look and listen for birds like meadowlarks and bobolinks with Jason “the Birdnerd” and enjoy some birdy trivia and snacks after the stroll.

Timeframe: Spring 2026 (April/May)

Value = \$350 Buy-it-Now = \$700

Item #11
