

## Prairie Senses Scavenger Hunt

“Did you hear that? What is that on the hill? How does that leaf feel? That’s a different smell!” The easiest way to get to know a new place is to use your senses. The closer you look, listen, feel, and smell the world around you, the more you will learn about it, and you already have all the equipment you need.

As you explore along any of the trails at Spring Creek Prairie, test your senses by seeing, feeling, smelling, or touching the items below.

Tall grass (over 4 ft)	Plant with seeds	Thorny plant	Bird eating	Animal scat (poop!)
Woody plant	Yellow flower	Something an animal chewed on	Plant with fruit	Fuzzy plant
Loose soil (Dig in it, smell it)	Red leaves	Bird feather	A plant with skinny leaves	An insect (6 legs)
Purple flower	Bird flying	Worm or larva	Rotten smell	Animal home
Plant with bug holes	Animal track	Wet smell	Bird singing	Not a plant or animal
Spider	Dead plant	Bird nest	Wind (Smell it, feel it, see it)	Rough rock
